

Web site. EPA will evaluate the complete application in determining whether WIPP continues to comply with the radiation protection standards for disposal. In addition, EPA will consider public comment and other information relevant to WIPP's compliance. The Agency is most interested in public comment on any issues where changes have occurred that may potentially impact WIPP's ability to remain in compliance with the requirements outlined in EPA's disposal regulations, as well as any areas where the public believes that changes have occurred and have not been identified by DOE.

The first step in the recertification process is a "completeness" determination. EPA will make this completeness determination in the near future as a preliminary step in its more extensive technical review of the application. This determination will be made using a number of the Agency's WIPP-specific guidances; most notably, the "Compliance Application Guidance" (CAG; EPA Pub. 402-R-95-014) and "Guidance to the U.S. Department of Energy on Preparation for Recertification of the Waste Isolation Pilot Plant with 40 CFR Parts 191 and 194" (Docket A-98-49, Item II-B3-14; December 12, 2000). Both guidance documents include guidelines regarding: (1) Content of certification/recertification applications; (2) documentation and format requirements; (3) time frame and evaluation process; and (4) change reporting and modification. The Agency developed these guidance documents to assist DOE with the preparation of any compliance application for WIPP. They are also intended to assist in EPA's review of any application for completeness and to enhance the readability and accessibility of the application for EPA and public scrutiny. It is EPA's intent that these guidance documents give DOE and the public a general understanding of the information that is expected to be included in a complete application of compliance. The EPA may request additional information as necessary from DOE to ensure the completeness of the CRA.

Once the 2009 recertification application is deemed complete, EPA will provide DOE with written notification of its completeness determination and publish a **Federal Register** notice announcing this determination as well. All correspondence between EPA and DOE regarding the completeness of the CRA-2009 will be placed in the public docket.

EPA will make a final decision recertifying whether the WIPP facility continues to meet the disposal regulations after each of the aforementioned steps (technical analysis of the application, issuing a notice of the CRA-2009's completeness in the **Federal Register**, and analyzing public comment) have been completed. As required by the WIPP LWA, EPA will make a final recertification decision within six months of issuing its completeness determination.

Synopsis

The Consumer and Governmental Affairs Bureau extends the comment period for issues raised in the *Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, Public Notice and Notice of

Proposed Rulemaking, CG Docket No. 03-123, FCC 09-39, published at 74 FR 23815, May 21, 2009 and 74 FR 23859, May 21, 2009 (*PN and NPRM*).

The *NPRM* portion seeks comment on whether, notwithstanding the rate methodology established in *Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, Report and Order and Declaratory Ruling, CG Docket No. 03-123, FCC 07-186, published at 73 FR 44170, July 30, 2008, the Commission should modify the compensation rates for Video Relay Service (VRS) for the 2009-2010 Fund year. Pursuant to the *NPRM*, comments are presently due on June 4, 2009, and reply comments are due June 11, 2009. Sorenson Communications, Inc. (Sorenson), a VRS provider, filed *Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, Motion to Rescind VRS Rate *NPRM* or, in the Alternative, to Extend the Comment Period, CG Docket No. 03-123 (May 19, 2009) (Motion to Rescind). A coalition of consumer organizations filed comments taking no position on Sorenson's *Motion to Rescind*, but supporting an extension of the comment period, *see Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, CG Docket No. 03-123, Comments on Sorenson Communications, Inc.'s Motion to Rescind VRS Rate *NPRM* or, in the Alternative, to Extend the Comment

Period, filed by Telecommunications for the Deaf and Hard of Hearing, Inc.; Association of Late-Deafened Adults, Inc.; National Association of the Deaf; Deaf and Hard of Hearing Consumer Advocacy Network; California Coalition of Agencies Serving the Deaf and Hard of Hearing; American Association of the Deaf-Blind; and Hearing Loss Association of America (May 26, 2009).

Although the Commission does not routinely grant extensions of time, pursuant to 47 CFR 1.46(a), the Commission finds that in this case an extension of the comment period is warranted to afford parties the necessary time to file comments that will result in a more complete record in this proceeding. This limited extension will not unduly delay the Commission's consideration of the issues.

Ordering Clauses

The Motion to Extend the Comment Period filed by Sorenson Communications, Inc., *is granted* to the extent indicated herein.

This action is taken pursuant to the authority provided in § 1.46 of the Commission's rules, 47 CFR 1.46, and under delegated authority pursuant to §§ 0.141 and 0.361 of the Commission's rules, 47 CFR 0.141, 0.361.

Federal Communications Commission.

Suzanne M. Tetreault,

Acting Deputy Chief, Consumer and Governmental Affairs Bureau.
